GOODMATCH

MADE IN ITALY

GOODMATCH

disegna e produce artigianalmente dal 1964 a Parma, un'azienda familiare che ha saputo evolversi restando fedele ai propri valori: artigianalità e innovazione nello sviluppo di nuovi materiali, con una produzione 100% italiana e supportata dai migliori fornitori italiani del settore, a chilometro zero.

Siamo specialisti del tessuto Jersey, che utilizziamo anche per i nostri cappotti e blazers, per offrire alla nostra clientela, dinamica e sempre in movimento, un prodotto moderno, confortevole e facile da essere portato tutta la giornata.

Abbiamo sviluppato la collezione Autunno-Inverno 2024 partendo dalla ricerca di materiali innovativi, morbidi, elastici e leggeri, in grado di essere usati su capi sfoderati, che offrono un confort imbattibile, belli dentro come fuori, facili anche da lavare in casa.

Il risultato è un 'good-match' tra qualità artigianale Made in Italy e innovazione, il tutto con una performance e un confort imbattibili!

GOODMATCH

is developed and produced in Parma (Italy) since 1964. A family business with more than 50 years of history, evolving while being faithful to its values: craftsmanship, innovation, and a sustainable production 100% Made in Italy.

We are specialists in the use of Jersey fabrics and we target a modern working-woman, always on the move, by offering her a contemporary collection, comfortable and easy to wear all day.

AW24 Collection, starts from a research on fabrics to create an innovative, light and highly performing mix, developing a new generation of materials using de-constructed models without lining, to have the maximum comfort, lightness and elasticity. We are launching a new generation of coats and blazers: super light, warm and easy to wear and to wash at home.

The result is a "good-match" between Made in Italy quality and innovation, all with a superior comfort and performance!

I NOSTRI CAPI REVERSIBILI.

Cercando soluzioni innovative e pratiche per le nostre clienti, abbiamo sviluppato capi reversibili, in grado di cambiare look in un secondo e adattarsi a diverse situazioni nel corso della stessa giornata.
